

Critical Care Section Meeting

Welcome by Chair

Board Liaison Report- Arvind Venkat, MD, FACEP

Dr. Venkat discussed the importance of critical care in within ACEP. He encouraged section members to review ACEP Strategic Plan and provide feedback <https://www.acep.org/what-we-believe/strategic-plan/>. Dr. Venkat reviewed the Board of Directors election results including our new President Elect Dr. Kang. He encouraged members to reach out to him with issues they want to discuss as the Board Liaison. He mentioned that with new elections there is a possibility that there could be a new Board liaison assigned.

Announcements

Discussion of JACEP as great place to publish Critical care work. Lots of critical care physicians on editorial board

Council Report

Very busy council. Lot of relevant material to practice of critical care. Keep on eye ACEP publications for more information
