

## De-Identified CV #1

### EDUCATION

---

<b>Mount Sinai Beth Israel</b> The Icahn School of Medicine at Mount Sinai, New York, NY Emergency Medicine Residency Academic Chief Resident	07/15 – 06/18
<b>Sydney Kimmel Medical College</b> , Philadelphia, PA Doctor in Medicine	08/10 – 05/15
<b>The Pennsylvania State University</b> , University Park, PA B.S. in Science, Minor in Theatre Accelerated B.S./M.D. Program with Thomas Jefferson University	06/08 – 05/10

### INSTITUTIONAL POSITIONS

---

<b><i>Academic Chief Resident</i></b> MSBI Emergency Medicine Residency As Academic Chief Resident, I am primarily in charge of conference and our residency's asynchronous conference curriculum. I create and update asynchronous modules for resident education, work to invite national speakers as well as build the conference schedule for the academic year. In addition, I am in charge of a monthly Chief Resident Lecture series focused on new evidence-based medicine topics of the month in Emergency Medicine.	07/2017 - Present
<b><i>Resident Ultrasound Instructor, Medical Student Clerkship</i></b> MSBI Emergency Medicine Residency	07/2016 – Present
<b><i>Member, Education Committee</i></b> MSBI Emergency Medicine Residency	07/2016 - Present
<b><i>Member, Community Service Committee</i></b> MSBI Emergency Medicine Residency	07/2016 - Present
<b><i>Member, Physician Resilience Committee</i></b> MSBI Emergency Medicine Residency	07/2016 - Present

### LECTURES

---

- “Femoral Nerve Blocks”  
ALLNYCEM Conference #14, NYU Langone Hospital, March 28, 2018, New York, NY
- Monthly EM #FOAMed Updates, April 2017 - Present  
*Ongoing Monthly Chief Resident Lecture Series*
- “What Can Bayes Do For You?”  
ALLNYCEM Conference #13, Mount Sinai Hospital, August 30, 2017, New York, NY
- “Choosing Opioids Wisely for Chronic Non-Chronic Cancer Pain”  
Inter-departmental Grand Rounds, Mount Sinai Beth Israel, May 24, 2017, New York, NY
- “Triage, CPR and First Aid”

High School for Health Professions and Human Services, November 17, 2016, New York, NY

- “Morbidity and Mortality Conference: Necrotizing Fasciitis”  
Mount Sinai Beth Israel Emergency Medicine Conference, August 17, 2016, New York, NY
- “Interesting Case: Ludwig’s Angina”  
Mount Sinai Beth Israel Emergency Medicine Conference, June 15, 2016, New York, NY
- “Life as an EM Intern: 10 Tips to Get You Through”  
New York ACEP Medical Student Symposium, April 7, 2016, New York, NY
- “Orthopedics Lecture: The Wrist and Hand”  
Mount Sinai Beth Israel Emergency Medicine Conference, October 7, 2015, New York, NY

## **QUALITY IMPROVEMENT AND PATIENT SAFETY**

---

***“An Improved Notification System for Patients Requiring Resuscitation”*** 11/2016 – Present  
Mount Sinai Beth Israel Emergency Department

When a patient requiring critical care arrives to the emergency department with prehospital staff, a notification is called so that the accepting team in the ED can adequately prepare for the patient’s arrival. In our ED, a notification from EMS is called into the notification phone. Usually a nurse (not necessarily the charge nurse) picks up the phone and gets the information from EMS about the patient. We suggest the implementation of a simple Notification Alert Form. This is a small form that can be kept at the notification phone and contains all the basic, high-yield information that a provider hopes to have in order to adequately prepare to provide safe and effective care to the critically-ill patient.

## **OTHER EXPERIENCES**

---

***Fellow, All New York City Emergency Medicine*** 01/2016 – Present  
ALLNYCEM is a non-profit organization that is dedicated to the education of emergency medicine residents run by an experienced steering committee of NYC EM educators. The fellowship is completed in your PGY-3 year and is meant to provide experience in conference development and planning, networking, and mentorship by the educational leaders within this group. As a fellow, I assisted in running the bi-annual conferences as well as the bi-annual medical student bootcamp and the chief residency retreat. In addition to duties as a fellow, I was able to attend CORD on a scholarship provided by the program and received free registration for the International Teaching Course in NYC.

***Chair, Emergency Medicine Residency Committee*** 7/2016 - Present

***Vice Chair, Emergency Medicine Residency Committee*** 7/2016 – 6/2016

***Member, Emergency Medicine Residency Committee*** 7/2015 – 7/2016

New York American College of Emergency Physicians, Webster, NY

As Vice Chair, I have assisted and given lectures at both the NY ACEP Medical Student Symposium and the NY ACEP Residency Job Fair. I had the pleasure of being an active member of 2016’s ACEP Council as a voting member of NY ACEP. In June 2016, I was named Chair of the NY ACEP EM Residency Committee and now have primary responsibility of organizing the Medical Student Symposium, the NY ACEP Residency Job Fair, as well as organizing a state-wide community service event.

***Member, ALiEM Chief Resident Incubator*** 4/2016 – Present

The ALiEM Chief Resident Incubator is a community of chief residents who will have closed access to some of the best leaders and educators in emergency medicine. This is a subscription-only, chief resident-only training platform, and has allowed me to participate in conference calls as well as meet-and-greets

with many mentors and leaders in emergency medicine.

***Sexual Assault Forensic Examiner, Crime Victims Treatment Unit*** 9/2016 – Present  
Mount Sinai Beth Israel, New York, NY

Sexual Assault Forensic Exam (SAFE) work requires dedication and immense patience. As a certified SAFE examiner, I have been able to help victims of sexual assault overcome one of the most trying moments of their lives. Each exam can be both physically and emotionally taxing for both examiner and patient. It has been my honor to be included in the process for these victims as they find solace and empowerment from their situation.

***Chief Research Associate, Department of Emergency Medicine*** 8/2011 – 5/2012  
Thomas Jefferson University Hospital, Philadelphia, PA

As a Chief Research Associate, my primary purpose was to manage all ongoing ED clinical studies. My other tasks included recruiting undergraduate students from local universities to act as Research Associates (RAs), supervising our RAs in data mining and data collection relevant to clinical needs and evaluating RAs based on performance. Furthermore, I assisted ED attendings and residents with organizing and conducting studies. I was in charge of two studies personally: the perception of medical students by patients in the emergency department and the effect of multiple ED visits on repeat emergency severity index (ESI) scores. The first study was published as an abstract and both studies were presented as posters.

***M. Andrew Levitt Research Scholar, Department of Emergency Medicine*** 6/2009 – 8/2009  
Thomas Jefferson University Hospital, Philadelphia, PA

As a research scholar, I assisted with various ongoing ED studies and gained valuable clinical experience by shadowing ED attendings and residents. My primary project was to research the relationship between medical experience and diagnostic aptitude in the Jefferson ED. This was done by having medical students, residents and attendings survey patients for 10-second periods at a time.

***GRE/SAT Instructor and Tutor*** 6/2017 – 5/2008  
Kaplan Test Prep, State College, PA

As a Kaplan Instructor, I taught students in both a classroom and one-on-one setting on the GRE and SAT.

## **PUBLICATIONS AND POSTER PRESENTATIONS**

---

- “Spinal Epidural Abscess”  
*In Progress*, Clinical Decision Support: Emergency Medicine (Book Chapter)
- “Shortcomings in Sickle Cell Management”  
Empire State EPIC VOL 35:03:18, March 2018
