

Alcohol

How
much
is too
much?

Sometimes Even One Drink is Too Much.

If you are:

- Driving or Planning to Drive
- At Work or Returning to Work
- Pregnant or Breast Feeding
- On Medication
- Have Certain Medical Conditions

Alcohol and Injury

In addition to a strong relationship between alcohol and motor vehicle accidents, alcohol can be involved in many other injuries such as:

- Falls
- Burns
- Drownings
- Pedestrian Injuries
- Assaults
- Work Injuries
- Domestic Violence
- Sports Injuries

Health Effects of Alcohol

Heavy drinkers may experience long-term health effects including:

- Damage to the liver, pancreas, brain and heart, and increased risk for many cancers.
- Birth defects have also been associated with drinking during pregnancy.
